DETAILED ACTION

Allowable Subject Matter

1. Claims 1-33 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests a memory transistor, that stores multiple values, has a plurality of impurity bars or stripes which extend in the channel length direction and a plurality of channel regions between the impurity bars or stripes.
3. Kojima et al. (USPN 5,198,996) discloses a multi-gated device. However there is no disclosure of a plurality of impurity regions which extend in the channel length direction. Thus Kojima does not teach the applicant's device.
4. Adler et al. (USPN 6,433,372 B1) discloses another multi-gated device. This device does not disclose a plurality of impurity regions which extend in the channel length direction. Thus Adler teaches away from the applicant's invention.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
